PROFESSIONAL SUMMARY: Administered tests that followed guidelines based on information found within MT ASCP H certification. Controlled highly specialized tests while analyzing experiments to help doctors reach optimal diagnoses.

PROFESSIONAL EMPLOYMENT – ST. LOUIS, MO

AVL CLINICAL LABORATORY / OWNER & CHIEF MEDICAL TECHNOLOGIST 2001 – 2021

- Provided diagnostic testing with measurable results that were distributed among universities, zoos, and independent laboratories to confirm or rule out conditions and diseases.
- Addressed hematology issues that analyzed the bloodwork of test subjects by utilizing blood smear reviews, differentials, coagulations, serology, and clinical chemistry.
- Experienced in blood smear analysis of human and veterinary hematology including avian hematology where technicians can help to determine the overall health of an avian patient.

VETERINARY REFERENCE LABORATORY / LAB DIRECTOR 1990- 2001

- Performed diagnostic testing on a wide variety of animal species by utilizing in-depth research techniques that required strong critical thinking skills to attain the best diagnoses.
- Monitored daily operations that focused on the use of highly effective organizational skills.
- Demonstrated the ability to identify training opportunities for new employees in order to increase the quantity and quality of their productivity benchmarks.
- Coordinated hematology procedures and blood smear evaluations to determine abnormalities that could lead to infections, anemia, and blood cancers.

SAINT LOUIS UNIVERSITY HOSPITAL / SPECIAL HEMATOLOGY LABORATORY 1986 – 1989

- Functioned in the capacity of a technologist as well as a morphologist by studying the form and structure of organisms and their unique structural features in order to explain how various species interacted with one another.
- Followed specific guidelines for hematology and coagulation procedures while working effectively with little to no supervision, freeing up managers to work on different projects.

SAINT LOUIS UNIVERSITY HOSPITAL / STAT LABORATORY 1982 – 1985

- Performed stat and routine testing to diagnosis the health of patients in the areas of hematology, cell differential, body fluid analysis, coagulation, and urinalysis.
- Trained and inspired a wide range of analyzers to scrutinize tests that needed to be completed quickly and accurately in accordance with clinical necessity while meeting all deadlines.

EDUCATIONAL BACKGROUND

Bachelor's in Science Education • Southern Illinois University Edwardsville • 1978 - 1982
Plus 30 credit hours of chemistry and biology for ASCP certification
