**PROFESSIONAL SUMMARY:** Administered tests that followed guidelines based on information found within MT ASCP H certification. Controlled highly specialized tests while analyzing experiments to help doctors reach optimal diagnoses.

### PROFESSIONAL EMPLOYMENT – ST. LOUIS, MO

AVL CLINICAL LABORATORY / OWNER & CHIEF MEDICAL TECHNOLOGIST 2001 – 2021

- Provided diagnostic testing with measurable results that were distributed among universities, zoos, and independent laboratories to confirm or rule out conditions and diseases.
- Addressed hematology issues that analyzed the bloodwork of test subjects by utilizing blood smear reviews, differentials, coagulations, serology, and clinical chemistry.
- Experienced in blood smear analysis of human and veterinary hematology that included avian hematology where technicians can help doctors determine the overall health of an avian patient.

VETERINARY REFERENCE LABORATORY / LAB DIRECTOR 1990- 2001

- Performed diagnostic testing on a wide variety of animal species by utilizing in-depth research techniques that required strong critical thinking skills to attain the best diagnoses.
- Monitored daily operations that required highly effective organizational skills.
- Demonstrated the ability to identify training opportunities for all employees in order to help them meet productivity benchmarks that prioritized quantities and qualities of diagnostic testing.
- Coordinated hematology procedures and blood smear evaluations to determine abnormalities that could lead to infections, anemia, and blood cancers.

SAINT LOUIS UNIVERSITY HOSPITAL / TECHNOLOGIST SPECIALIST 1986 – 1989

- Functioned in the capacity of a technologist as well as a morphologist by studying the form and structure of organisms and their unique structural features in order to explain how various species interacted with one another.
- Followed specific guidelines for hematology and coagulation procedures while working effectively with little to no supervision, freeing up managers to work on projects key to the organization.

SAINT LOUIS UNIVERSITY HOSPITAL / HEMATOLOGY TECHNOLOGIST 1982 – 1985

- Performed stat and routine testing to diagnosis the health of patients in the areas of hematology, cell differential, body fluid analysis, coagulation, and urinalysis.
- Trained and inspired a wide range of analyzers to scrutinize tests that needed to be completed quickly and accurately in accordance with clinical necessity while meeting all essential deadlines.

### EDUCATIONAL BACKGROUND

Bachelor's in Science Education • Southern Illinois University Edwardsville • 1978 - 1982  
Plus 30 credit hours of chemistry and biology for ASCP certification
